SMART SOLUTIONS, EFFICIENT PERFORMANCE

Switchgear Industries today is a premier manufacturer of complete range of standard and customised Control Panels products in India. We, at Switchgear Industries pride our expertise on manufacture of Control Panels for a wide variety of applications, across a range of industrial and commercial sectors. Our precise and dependable services help our customers use electrical power effectively and increase industrial productivity with efficiency.

Led by visionary technocrat we are committed to provide innovative solutions backed by exceptional service and support. Our reliable and cost-effective Control solutions adhering to stringent quality measures and delivery timelines has established us as a reliable and trustworthy partner amongst leading names in the industry.

PREMIER MANUFACTURER OF ELECTRICAL CONTROL PANELS

SI through its expertise and progressive approach offers perfect solutions to a vast array of industries which include but are not confined to Electronic, Electrical, Plastic, Construction and Engineering.

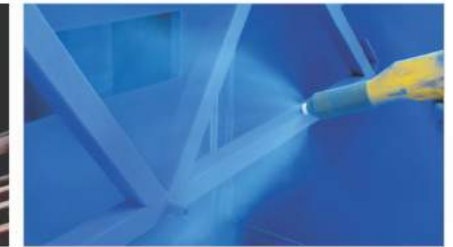

Established in 1993 by Mr. Prakash Surve, Switchgear Industries, is located within the industrial hub of Vadodara, Gujarat. The Company has grown steadily over the years to become a stalwart in Control Panel manufacturing. This has been primarily achieved due to our focus on superior customer service and technical expertise with a workforce of over 30 which includes highly trained personnel and qualified engineers.

Advantage SI >>

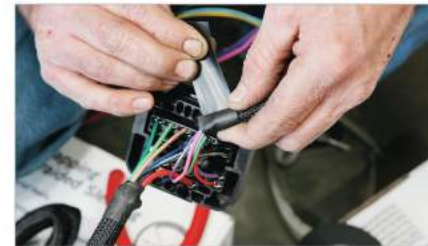

- Customized engineering solutions
- Quality first
- Timely delivery
- Cost-effective pricing structure
- Professional Approach
- Integrated Infrastructure
- Skilled team of professionals
- Effective and prompt after sales support

Integrated Infrastructure

Given our capabilities and flexible approach, no project is too small or too big, too simple or too complex. With more than 12,000 square feet of fabrication space at our disposal, our clients benefit from our vision and responsiveness. Our desire - and ability - to partner with our customers to meet their diverse and highly specific application requirements has earned us an exacting reputation.

The latest in technology and innovation come together to add to our infrastructure. We constantly synchronise our facilities to the market needs and are in tandem with our vision for growth.

Our Approach

For all stages we have a checklist before the products goes to the next stage. All important parameters are defined and strictly adhered to.

Periodic audits are conducted, non conformities noted, root cause analysis conducted and corrective action initiated in a systematic manner. Amendments to the process are done on need basis to keep the processes optimal, simple and effective. Our customers are assured of the benefits and product reliability
